#### **DETAILED ACTION**

#### Status of Claims

Claim 2 is cancelled.

Claims 1 and 3-7 are pending.

Claims 1 and 3-5 and 7 are rejected.

Claim 6 is allowable.

## Response to Amendment

The amendments to the claims have been received and acknowledged by the Examiner.

### Response to Arguments

Applicant's arguments, see remarks, filed July 6, 2004, with respect to claims 1 and 3-6 have been fully considered and are persuasive due to amendment. The rejection and objections have been withdrawn.

Due to the recent cancellation of claim 2, the rejection of claim 2 under 35 USC 103(a) as being unpatentable over WO 99/11605 and USP 3,558,690 is also withdrawn.

Applicant's arguments filed July 6, 2004 with respect to the rejection of claim 1 and 7 have been fully considered but they are not persuasive. Applicant argues that the process of the prior art does not afford the same compound as claimed.

The Examiner contends that although it is not stated in the prior art that the same product is afforded then, steps of the reaction that should be present must not be claimed since the same reaction is taking place.

Art Unit: 1621

Applicant's arguments filed July 6, 2004 with respect to the rejection of claim 7 have been fully considered but they are not persuasive. The Examiner contends that Formula IIIa of USP 3,558,690 teaches compound II as found in claim 7.

### Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 3-5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Since the prior art of record, WO 99/11605 and USP 3,558,690, teaches the same process as claimed, the Examiner contends that required process steps are not being claimed in order to arrive at the compound of formula I. Therefore, applicant must enter these process conditions and/or steps in order to enable the process that is claimed against the prior art of record.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 3 recites the limitation "which comprises one or more of processes a) to n) as defined in claim 2". There is insufficient antecedent basis for this limitation in the claim as claim 2 has been cancelled.

### Allowable Subject Matter

Art Unit: 1621

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
